ENVIRONMENTAL POLICY

A.M. Fire Consultants, as a responsible organisation in the fields of Consultancy, Training, Supply and Maintenance appertaining to Fire, is fully committed to continuously reviewing and reducing the impact of its operations and services on the environment.

The Directors & Staff are committed to achieve these objectives through the implementation of their Environmental Management Procedures, which are in accordance with the principles and practices of ISO 14001:2004.

The Environmental Management Procedures have been designed to ensure:-

1. Due consideration is taken of the nature, scale and environmental impacts of AM Fire activities and services.
2. All employees are committed to a process of continual improvement and the prevention of pollution.
3. The organisation complies with relevant environmental legislation and regulations.
4. Procedures are established to provide the framework for setting and reviewing environmental objectives and targets.
5. Documented evidence is maintained of implementation, reviews, preventive actions taken and communications to staff.

Whilst all Directors and Staff are individually responsible for the implementation of the requirements of the Environmental Management Procedures, Alan Stanley has undertaken responsibility for ensuring all Staff adhere to the requirements of this policy.
